West Central Community Center (WCCC) is a non-profit organization in Spokane that has been providing a variety of services to the community for 40 years. WCCC offers Community Inclusion (CI), which is funded by Spokane County.

Community Inclusion:

This program is designed to offer recreational and social activities for participants who are sixty-two and older or those who have received 9 months of employment support and have decided not to continue to look for work. Our dedicated staff seek out volunteer opportunities as well as membership in groups or clubs that align with our clients' interest. At the center of all of this is the emphasis on creating new, meaningful, and lasting friendships between our clients and other community members. Our goal is to give our participants the opportunity to discover new experiences and develop a sense of belonging. We provide one-on-one outings and are willing to resolve challenges. We have participants that are high needs, and some that present challenging behaviors. We welcome those challenges just as we welcome everyone. Our motto at WCCC is "There is a place for you here."
